

The artist Gonzalo De Cerchio gives birth to "Pipoca", an eccentric character with different facets of which the Clown, Magic and Humor stand out. His innumerable trips around Latin America, Europe and Asia have expanded his experiences and tools to create a magical world on stage where everything is possible and even failure is fun.

"EL EQUILIBRIO IMPOSIBLE"

THE STREET AS A SCHOOL

Pipoca has had many teachers from many different disciplines, but he says: "Working on the street as an artist teaches how to transform a hostile space into a theater and how to connect with people. And it also teaches that living in a better world is possible, you just have to make it happen."

Close up Magic

Close up magic with the use of cards, handkerchiefs, sponge balls, elastics and different materials. Always with a touch of humor, Pipoca does the impossible in front of the public's eyes.

- *Aimed at small groups of people at tables in bars and events.*
- *Duration to the customer's need.*
- *No technical requirements.*
